"The Quantum Mechanic State of DNA Sequencing" by Marko Rodin

Published in the proceedings of the International Bio-Technology Expo (IBEX) the largest genetic engineering conference in the world.

Rodin DNA and Microbiology

DNA is not comprised of two helices but from three with the third helix being invisible and occupying a displacement space called the *Major Groove* which is located in between the two helical strands. Nature abhors a vacuum. This Major Groove is not empty but instead is where all information for the genetic coding of life exists. Rodin's Vortex Based Mathematics is the schematic for life revealing that inside the Major Groove of DNA exists a higher dimensional Bioaetheric Template (Morphogenetic Field) defined by the mathematical number pattern 3, 9; 6, 6, 9, 3 revealing the existence of an All Coherent higher intelligence guiding evolution.

Selective splicing of novel DNA sequence combinations are able to be performed at will for medical treatment and the elimination of all diseases by utilizing these higher dimensional Flux Fields to control DNA cleavage and receptor sites.

Maxwell previously stated that there must needs to exist a Monopole to symmetrize all of his electrical equations. Rodin's math is a blueprint that gives us the ability to observe this missing Monopole in the form of an Inertia Aether Flux represented by the number 9 and it's associated Magnetic Field represented by the numbers 3 & 6 which are perfectly nested in unison within the Major Groove of DNA .

The backbone of DNA's double spiral helix is comprised of phosphates and phosphates are known to always have a negative electric charge and obviously with any negative electric charge there is always going to be an associated magnetic field.

Rodin Microscopic Underpinning Nested Vortices

Every continuous medium has the inherent capability to be superconductive based on harmonic cascading. Examples of continuous mediums, in the form of a toroidal matrix, are tornados, hurricanes, water spouts, solar systems, galaxies, black holes/white holes and maelstroms. There are many other examples of localized space-time implosions which Rodin refers to as underpinning nested vortices. Whether energy is maintained and survives in the form of a toroid, or DNA spiral helix, or goes through mitosis and duplicates itself, is determined by whether or not nested underpinning vortices are staggered or aligned in their World Boundary Condition.

AERODYNAMICS

Rodin Medical Devices

Marko Rodin has the most advanced technologies for medical devices that include unique fields & frequencies, elation fields, incensory, biometric treatments. Several existing medical products have incorporated the Rodin Coil into their design.

Applications of this technology include improved designs of MRI & imaging machines for visualization of the internal structure and function of neurological (brain), musculoskeletal, cardiovascular, and oncological (cancer) imaging.

Rodin Medical Treatments

Diseases can be controlled by enabling selective cutting and splicing of genetic sequencing at cleavage and receptor sites. Mathematics reveals that the major groove nested inside the double spiral helix of DNA is not hollow but occupied by a Morphogenetic Field (Bioetheric Template) defined by the discovery of a mathematical number pattern now called the equal potential major groove gap space of the flux field of (3-9-6-6-9-3). This controls cellular communication and its how all genetic information is stored and reproduced, through Mitosis and DNA sister strand unravelling.

Rodin Peer Reviews & Endorsements

Dr. Hans Nieper, world renown cancer doctor and former physician to President Reagan, invited Rodin to submit a paper to the prestigious medical journal he is president of because he believed in Rodin's work;

Dr. Jonas Salk, offered to be Rodin's personal physician and told him his work was so advanced he'd never complete it in his lifetime unless he cloned himself;

Prof. Scot C. Nelson, University of Hawaii, *"In my opinion, the Rodin Coil may have more than just unusual or interesting electromagnetic properties. Mr. Rodin's model is a new way to look at the relationship between music, mathematics, and the structure of plants and animals. I believe that a study of the relationship between energy and matter could start by applying the principles of the Rodin Torus model and Rodin's "polarized fractal geometry". I was able to arrive at an independent and scientifically valid confirmation of the mathematical principles that form the basis of the Rodin Torus model."*

Christine Jackson, editor of "Explore More", a cutting edge medical journal in the US;

Sal Rosenthal, inventor and patent holder of the tuberculosis test, regularly invited Rodin to participate in his California think tanks;

Dr. Hans A. Neiper

DEUTSCHE GESELLSCHAFT FÜR ONKOLOGIE e.V.

German Society of Oncology

Dear Mr. Rodin,

I consider your paper of extreme importance.

To me your conclusions are very likely.

I recommend your paper for publication in the

GERMAN JOURNAL OF ONCOLOGY.

Please keep me informed of your further work.

Sincerely,

Sincerely,

(Dr H A Neiper)

Dr. Hans A Neiper
